

Delivery of Climate Finance Accelerator (CFA) Programme in Turkey

Department for
Business, Energy
& Industrial Strategy

Framework

Coordinator

2021- 12months

Duration

Objective

The Climate Finance Accelerator (CFA) is a four-year technical assistance programme funded by the United Kingdom Department for Business, Energy & Industrial Strategy (BEIS). The programme will work closely with nine middle-income countries and support them to develop a sustainable pipeline of bankable, low-carbon projects and identify suitable financing options.

The programme will also contribute to embedding a permanent CFA process in each country to identify financing for low-carbon projects to support countries' efforts in implementing their Nationally Determined Contributions (NDCs) and raising their overall climate ambition.

Impacts

- Access to investors.
- Valuable insights and capabilities in making projects attractive and investment ready.
- Networking with investors and other key stakeholders in the climate finance landscape.
- Increased visibility.
- Achieving low carbon project objectives.
- Gender equality and social inclusion.

Ekodenge's Role

Local project partner

- Inception support through review and add to programme-wide inception deliverables developed by the Core CFA Team as necessary to reflect the country context of Turkey.
- Stakeholder engagement support by identifying and engagement with the key stakeholders to secure their participation in the CFA process and ensure their attendance at the in-country event
- Prepare a report mapping the climate finance ecosystem in the country and outlining the key gaps that are a barrier to a fully functioning supply chain.
- Identify climate projects through discussions with stakeholders by issuing a call for proposals that will be refined into a shortlist of potential projects with support from the Core CFA Team.
- Conduct a kick-off event with selected project proponents to initiate the in-country process.
- Prepare for and deliver 3-day in-country event
- Follow up activities and preparation of report after in-country event
- Capacity building activities for project proponents
